THE FACTS ABOUT FUNERAL PRICES

There would be no need for advertising if we could have a frank talk with every family in New Castle and vicinity or if everyone knew the facts about funeral

Since neither is possible we adopt this means of giving facts about a service which every family will require . . . and to some the need will come suddenly. Any worthy funeral service should be of the high standard desired at such a time; and the cost of that service should be within the means of every family. Book-Leyde Mortuary offers just that kind of funeral service.

HANDS ACROSS THE SEA?

While the amenities of a festive occasion were flying about thick and fast, we hesitated to inject a note which might be interpreted as out of harmony with a prevalent spirit of friendliness and cordiality. The impulse to do so now is irresistible. It arises from the fervent declarations of distinguished visitors who arrived from France on board the Normandie that the voyage of the new queen of the seas to this country as one more evidence of the traditional friendship between France and the United States.

At the risk of assuming a somewhat boorish attitude in the matter, we question if this is true. OF ONE VOICE

In the great welter of bitterness and indignation among completely partisan New Dealers over the NRA decision of the supreme court, are inspired by passing events. it is important to remember one thing: The nine justices were of one mind. How much greater might the expressions of disappointment have adds to the discomfort and degree of been had the court divided closely or at all over an issue of such tre- dejection.

But the court was unanimous. It was a clear case to the liberal as well as the conservative justices. So it was not a 5 to 4, or 6 to 3, a 7 to 2 or even an 8 to 1 decision. Had a single member of the court filed a minority or even a partially dissenting opinion, it would have been given unusual importance by the groups displeased at the majority view. There is added significance in the fact that all three of the decisions affecting the New Deal were unanimous, the others being the adverse opinion on the Frazier-Lemke farm mortgage moratorium act and also that on the executive's dismissal of a late member of the federal trade

In this case it was psychologically important that the court was of a single mind, but probably there would be no point in hoping or Who wears the usual ailored suit; expecting that all important opinions of the high court might be unani- A white carnation on his coat mous. LIFEBUOY PROVED THE KEY TO SUCCESS

BUT YOU DIDN'T ENOUGH ABOUT LIFEBUOY_HOW MILD AND GENTLE IT IS!

COMPLEXION SOON TOLD YOU, DIDN'T IT ?

Why does Lifebuoy make complexions fresher, clearer, healthier? For two reasons. (1) Its lather deep-cleanses-rids pores of impurities that dull the skin. (2) Lifebuoy is gentler. Scientific skin tests on hundreds of women show it is more than 20 per cent milder than many so-called "beauty soaps".

Guards daintiness

Lifebuoy's rich lather purifies and deodorizes pores, stops "B. O." (body odor) - a fault we all must guard against, especially as the weather grows warmer

and we perspire more freely. Lifebuoy lathers generously in hardest water. Its own clean scent

vanishes as you rinse. Good Housekeeping Bureau and L. T. L.

Home Loans Must Be Filed June 27

June 27 Last Day For Home Owners To Apply For Aid Through HOLC

Urban home owners who are in involuntary default on their mortgages are warned to file their applications for relief loans from the Home Owner's Loan Corporation by June 27, less than two weeks away, when the thirty day extension period for new applications will expire Manager C. P. Cloak stated today.

Under the law, loans can be made only to those owners in genuine danger of losing their home through tax sale or foreclosure. The Corporation cannot consider the applications from persons who are able to carry their present mortgages or to obtain refinancing elsewhere. Euch ineligible applications merely abstruct the work of the Corporation field offices in handling cases of real distress.

The same general tests of eligibility apply to newly filed requests for loans as are applied to earlier applications now in process of closing or rejection. The applicant must have been in involuntary default on his present mortgage on June 13. 1933, unless a default occurring later is shown to have resulted from unemployment or other misfortunes. The Corporation was created to protect honest home owners who are in temporary difficulty and not to offier lower interest rates to mortgagors, or to save lenders from past mistakes or judgment in making excessive loans.

The home must have a value not exceeding \$20,000 and must be occubied by the owner or held by him as his homestead. The maximum loan is \$14,000 or 80 per cent of the value of the property, whichever is smaller. Any applicant who has deliberately defaulted on his present indebtedness will be rejected.

For the redemption of the home from forced sale or involuntary surrender, such transfer must have taken place since January 1, 1930. Applicants who have no present or prospective income of any kind are ineligible unless their notes are also signed by responsible parties, such as relatives.

Opposition To CCC Program

Charging "that wages paid CCC camp workers are a mere pittance compared to any decent wage standard, and that the presence of a young man in one of the camps, forces his family off relief, the general council of the Co-Operative Workers of America has passed a resolution condemning the CCC plan, and urging young men to not

The resolution further says that the CWA organization will make every reasonable effort to induce young men now in these camps to withdraw from them.

Notice of the passage of the resolution was given by R. T. Pettit of 117 South Ray street.

NEW YORK, June 17.—They say that when it comes to color and allaround appeal the St. Louis Cardinals have it over the New York Giants like a fur coat over a cold

shoulder. The world's champions are rough, tough and garrulous, while the New Yorkers supposedly are an unassuming lot, less talkative than old man Sphinx himself.

Giants Win In spite of this, however, it is becoming increasingly apparent that Col. Will Terry's young men have the better baseball club.

Yesterday in New York, the Giants dropped a knockout on their Louis rivals almost before the ball game began. Before a single man was out, the Giants scored five runs on five successive hits, two of them home runs, and from that point went on to win the game, 7-3. Fidgety Phil Collins, former Philly, was the mound mechanic who suffered this assault, and he was yanked from action before the opening inning was over. Carl Hubbell went the route for the

Indians Win Two In the American League, the Cleveland Indians climbed dangerously close to third place by taking two games from the Boston Red Sox. In the opener, Mel Harder, pitching against Lefty Grove, held the Sox to one feeble single to win by a score of 4 to 0. Willis Hudlin pitched the Indians to a 9 to 3 vic-

tory in the nightcap. The St. Louis Browns and the Washington Senators split a wild and wooly double-header in which the base hits fell in all corners of the lot. The Senators took the first game 17 to 8, registering 21 hits, but the Browns took the second contest, 10 to 9.

Schoolboy Rowe, pounded two pitchers, Benton and Caster, for 17 hits, to defeat the Philadelphia Athletics, 13 to 3. The New York Yanks were leading the Chicago White Sox 8 to 0, in the fourth inning when a thunderstorm came along and washed the ball game into the dis-
